

Get true **EVS visibility.**

*Join the hundreds of facilities
who rely on Smart Facility Software
for EVS management answers.*

THE INDUSTRY STANDARD
FOR ENVIRONMENTAL SERVICES

Take your **EVS visibility** to the next level, *on every level.*

Ease & optimize staffing analysis, create digital work assignments, increase team communications, improve training, simplify reporting.
All while reducing everyday management time.

Staffing

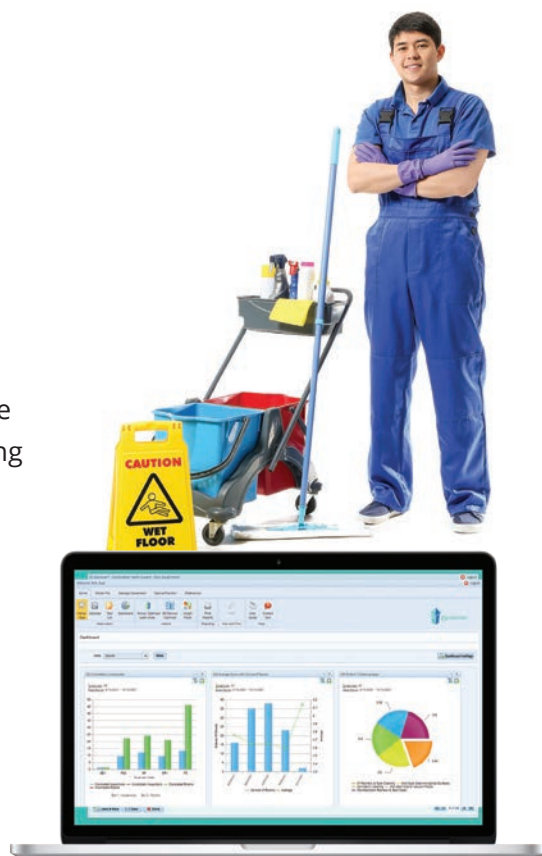

Get the right number of people.

Accurate Database of Your Unique Facility Cleaning Data

ES Optimizer inventories every cleanable space of your facility and assigns cleaning metrics to each room. Easily view and adjust cleaning times and frequencies.

Staffing Analysis & Reports

Create staffing analyses based on your facility's data, justify staffing requests, and evaluate proposed changes to your cleaning program with detailed reports.

Assignments & Scheduling

Your team knows what to do.

Daily Assignments

ES Optimizer calculates cleaning time for each assignment as you build it. Create balanced, standardized, and easy-to-read work assignments, and combine them to build short staff assignments.

Census-Based Scheduling

Get snapshots of patient room assignment workloads each day. Set discharge quotas for each assignment based on the day's census and analyze productivity results.

Project Work

Stop dropping scheduled work to put out fires: Schedule project work on a daily calendar, or add it as you see the need — right in the mobile app.

Days On/Off Scheduling

Ensure all work assignments are covered. See availability from 1-10 weeks out, schedule PTO, and run attendance reports by employee.

Dashboards & Reporting

Make your impact visible.

Customizable Dashboards

View pre-built dashboards or customize your own to visualize and allocate resources in real time.

Generate Reports

Generate detailed reports on room inventory based on real-time data, and create results reports as soon as a survey is completed.

REPORT ON ROOM INVENTORY IN MULTIPLE WAYS

Cleaning Data • Employee Training Reports • Exported Daily Work Assignments • Productivity Reporting • Project Work Orders • Cleaning Compliance • Cleaning History & Policing History by Date and Time

Training & QA

Continued improvement.

Manage Training Effectiveness

Employee Training

Schedule, document, and manage employee training. Choose from 50+ standardized classes or create your own. Report on completed classes, attendance, and scores.

Mobile Training Management

Schedule training and document attendance and scores on the mobile app, which also accepts employee signatures. Customize scoring system and attach photos and comments.

Eliminate Paper & Data Re-Entry

Mobile QA Inspections

Create inspections based on daily assignments and conduct inspections in the field. Customize the scoring system, attach pictures and comments to survey steps, and access over 40 customizable reports.

Mobile Team Communications

Put your entire EVS team
in direct contact.

ELIMINATE PAPER

CONNECT YOUR TEAM WITH ONE MOBILE APP

Mobile Daily Assignments & Policing Assignments

Drop paper checklists: document daily and project cleaning assignments on mobile devices. Technicians can mark tasks complete as they go.

Mobile Communications App

Communicate from web-to-mobile, mobile-to-mobile, and mobile-to-web, eliminating the need for EVS cell phones, pagers, and phone tag.

Mobile Task Management

Schedule, assign, and reassign tasks to team members from your mobile device to theirs. Technicians and managers can log and inspect project work on the go.

Mobile Service Requests

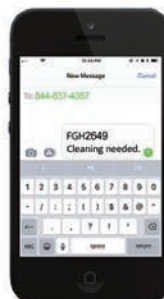

Customers can submit mobile service requests by scanning QR code signs. Requests are logged in the database and sent to the manager, or can be automatically assigned by the decision engine.

Restroom Need Service?

refer, you may also call 555-555-5555 with the room ID & service needed.
ROOM ID: 1730.1.All: Restroom Public RHS-09

Decision Engine

Automate hundreds of routine decisions, weekly.

Our software shares the decision load.

EVS Managers are responsible for hundreds of decisions each week. Let our Decision Engine share some of the load. You can rest easy knowing that our software will make the right decision, exactly the way you would make it. With the time you save, you can focus on the bigger issues that demand your attention and consideration.

You control criteria. Make decisions once.

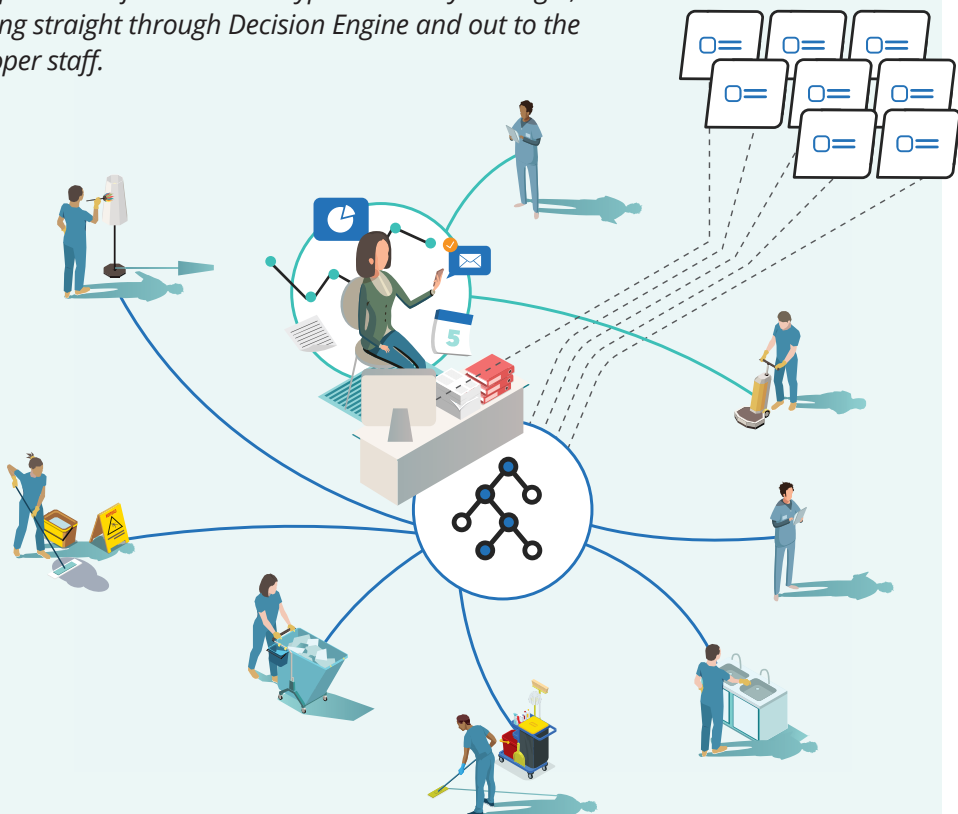

With Decision Engine, you can set up the criteria once, and then let our software take it from there: both the decision itself, and the communication to and from the selected staff.

Routine decisions bypass the busy manager.

SET UP THE CRITERIA ONCE

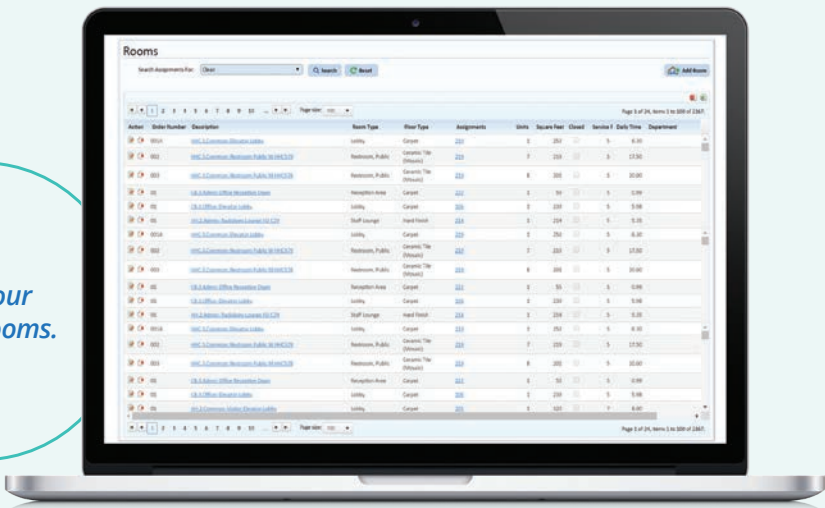

Type of Service Request • Room Type • Best Staff for the Task

Requests that fit the criteria bypass the busy manager, going straight through Decision Engine and out to the proper staff.

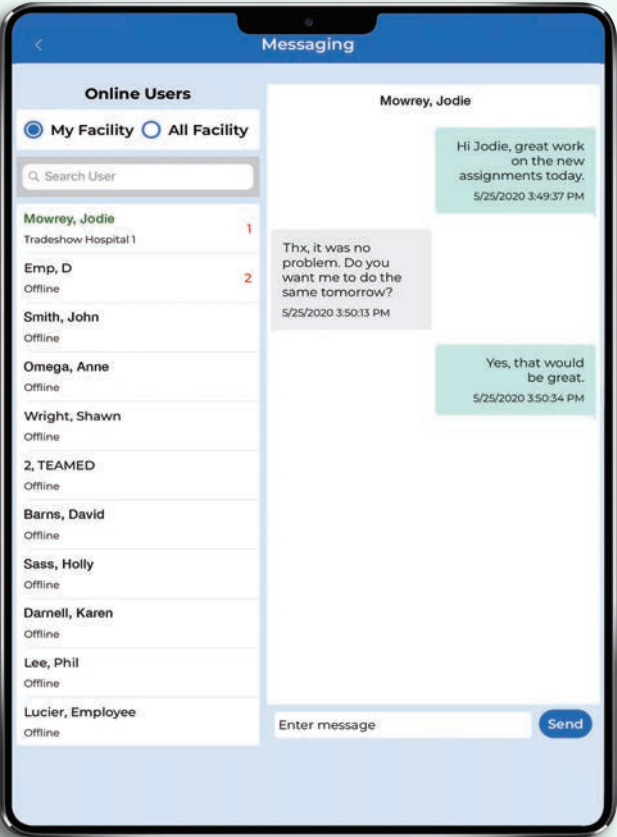

Visibility
in action:

See your
list of rooms.

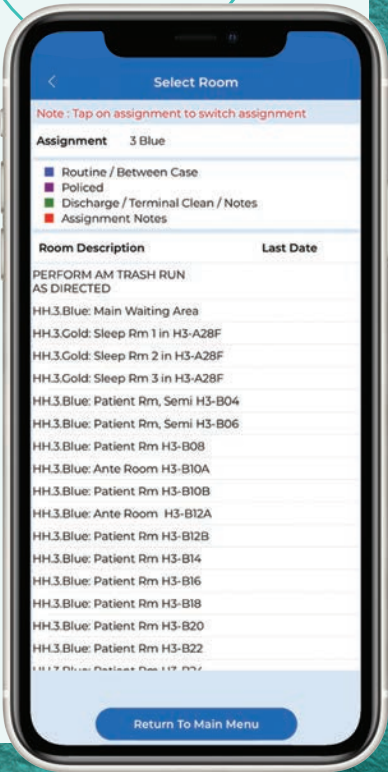

Two-way
communication
with your
whole team.

See work
assignments
on mobile app —
eliminate paper.

Conduct
mobile QA
inspections.

How much visibility?
Three software products
let you tailor your visibility level.

Visibility begins here.
