

Get true **EVS** visibility.

ES Optimizer™

Staffing

Get the right number of people.

Create an Accurate Database of Your Unique Facility's Cleaning Data

At its core, ES Optimizer is an inventory of every cleanable space of your unique facility, with cleaning metrics for each room. Instead of a model based on benchmarked standards, your database contains your actual and unique set of floors, rooms, and cleanable spaces.

Your unique
ES Optimizer database
is the key to:

- **planning wisely**
- **getting the most from your budget**
- **getting the best from your people**

Rooms are organized by buildings, floors, areas, assigned tasks, and cleaning frequencies.

Vital cleaning metrics are assigned to each room by room type, square footage/units, floor surface, and cleaning steps.

Cleaning times and task frequencies for each room are easily viewed and adjusted.

Over 90 healthcare room-type cleaning standards developed over 30 years.

Rooms

Search Assignments For:

Page size: 100

Action	Order Number	Description	Room Type	Floor Type	Assignments
	001A	HHC.5.Common: Elevator Lobby	Lobby	Carpet	219
	002	HHC.5.Common: Restroom Public W HHC579	Restroom, Public	Ceramic Tile (Mosaic)	219
	003	HHC.5.Common: Restroom Public M HHC578	Restroom, Public	Ceramic Tile (Mosaic)	219
	01	CB.3.Admin: Office Reception Open	Reception Area	Carpet	222
	01	CB.3.Office: Elevator Lobby	Lobby	Carpet	106
	01	HH.2.Admin: Radiology Lounge H2-C29	Staff Lounge	Hard Finish	214
	001A	HHC.5.Common: Elevator Lobby	Lobby	Carpet	219
	002	HHC.5.Common: Restroom Public W HHC579	Restroom, Public	Ceramic Tile (Mosaic)	219
	003	HHC.5.Common: Restroom Public M HHC578	Restroom, Public	Ceramic Tile (Mosaic)	219

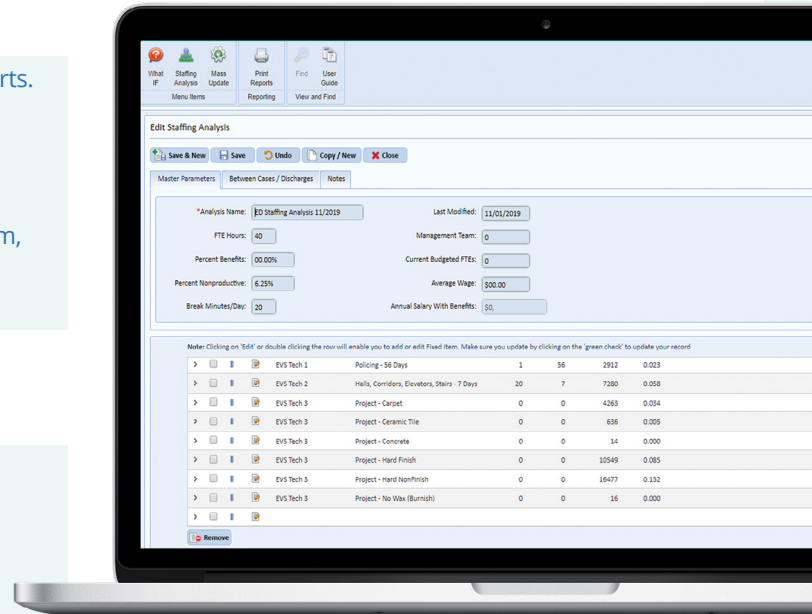

Staffing analysis & reports

Justify labor costs for any situation.

- Justify staffing requests with detailed, data-driven reports.
- Create unlimited staffing analyses based on complete, accurate facility data.
- Run, analyze, and implement “What If?” scenarios to evaluate proposed changes to your cleaning program, such as budget restrictions or additional requirements on your EVS team.

Get a clear view on your labor metrics such as:

- Total Daily Cleaning Hours
- Total Annual Project Hours
- Policing Hours
- Total Daily Cleaning FTEs
- Total Between Case/Discharge FTEs
- Total number of Annual/Project FTEs
- Grand Total FTEs

Multiple formats for sharing reports.

Export Reports to PDF, Excel, CSV, RTF, XML or Word, Print, Export or Email Reports.

Increase **your** EVS visibility.
