Get true **EVS visibility**.

# Survey Optimizer™

# Advanced Surveys
## Build any survey, any time.
## Conduct it in the field or online.

**BRING ALL SURVEYS TOGETHER IN ONE APP**

Compile data from **multiple locations** as it's collected. Electronically document steps taken during **isolation cleans**. Assure **compliance** with critical standards using mobile surveys. You'll be able to manage critical information on a broad scale. **Mobile collection and data upload:** Say goodbye to handwritten forms and data entry after the fact.

### Organize Surveys by Groups:

- Engineering
- EOC
- EVS
- Quality
- Risk
- Safety
- Infection Control, and more

### Choose from, modify, or add to built-in templates, including:

- Patient satisfaction and hospital revenue (HCAHPS)
- Safety and emergency management
- Medical equipment readiness
- Fire prevention and life safety
- Waste management
- Black Light inspections and ATP testing

## Build custom surveys that are unique to your process. Features include:

- Multiple scoring options — pass/fail, 1–5, etc.; or create your own.
- Location lists: Track where surveys are conducted.
- Survey lists: Track who is being surveyed.
- Control access with user groups.
- Option to require signatures on mobile survey.

# Smart Facility™ Software

**THE INDUSTRY STANDARD FOR ENVIRONMENTAL SERVICES**

# How it works

## MOBILE DATA COLLECTION

- Transfer your surveys to your Apple mobile device for use in the field.
- Use the Mobile App to collect and enter data directly to the cloud.
- Option to attach location data pulled from facility database in ES Optimizer.
- Track where your surveys are conducted, including departments and even rooms within departments.
- Eliminate paper surveys and data re-entry.

## DATA READY FOR INSTANT REPORTING

- Cloud-based: Upload data wirelessly to the cloud.
- Instant data entry: No more handwritten notes.
- Instant reporting: Choose from over 30 types of reports.

## DASHBOARDS

- Customize your own dashboard to view any data in your database:
- Choose data points and graph types from pre-built dashboards that include:
  - Survey Usage:
    - *Number of surveys completed*
    - *Top 5 templates used*
  - Survey Performance:
    - *Passing rates vs. failing rates*
    - *Average score*
    - *Number of faults generated*
    - *Number of faults resolved*

## LICENSING & SUPPORT — PER USER & ENTERPRISE OPTION

- Per seat (per user).
  - With full access to design & conduct surveys, and run reports.
  - Includes live tech support, designated EVS consultant and regular software upgrades.
- Enterprise option available with system-wide dashboard and powerful **Insight Control Panel.**
